Career Objective

Cybersecurity undergraduate with strong foundation in **network security, cryptography, and system security**. Skilled in **threat analysis, vulnerability assessment, and attack simulation**. Seeking to apply technical knowledge in secure system design and cybersecurity research while contributing to organizational security.

Education

B.Tech - Computer Science and Engineering (Cyber Security)

SRM Institute of Science and Technology

2024 – Present

CGPA: 9.27

Experience

Network Security Associate Intern (Fortinet)

Eduskills

Jul 2024 – Oct 2024

- Analyzed network traffic and identified vulnerabilities using security tools
- Applied firewall and intrusion detection concepts to improve network security understanding

Ethical Hacking Intern

Eduskills

Jul 2025 – Oct 2025

- Conducted vulnerability scanning and basic penetration testing on simulated systems
- Identified security weaknesses and recommended mitigation strategies

Projects

Security Analysis of Internet-Based Voice and Video Communication Infrastructure

- Analyzed VoIP protocols (SIP, RTP) across **100+ packets** to identify MITM and replay attacks
- Implemented SRTP and TLS encryption to improve communication security
- Performed packet-level traffic analysis using Wireshark

Practical Attacks and Countermeasures for Cryptosystems

- Simulated **3+ cryptographic attacks** including brute-force and timing attacks
- Designed countermeasures using secure key management techniques
- Improved system security by reducing vulnerability exposure

Security Analysis of CPU–GPU Coupled Architectures

- Investigated vulnerabilities in heterogeneous CPU-GPU systems
- Identified memory leakage and side-channel risks
- Proposed secure memory isolation techniques

Technical Skills

- **Programming:** Python, C, C++, Java
- **Security:** Ethical Hacking, Vulnerability Assessment, Threat Analysis
- **Tools:** Wireshark, Nmap, Burp Suite, Linux
- **Concepts:** Cryptography, Secure Communication, Network Security
- **Developer Tools:** Github, Visual studio code

Certifications

- Fortinet Certified Associate (FCA)
- Fortinet Certified Fundamentals (FCF)
- Cisco Network Defence
- ISO/IEC 27001:2022 Lead Auditor
